

DRUID SYSTEMS

Magic Potions For Your Business – Efficiency at the Core

DRUID SYSTEMS

WHO ARE WE?

A cutting-edge efficiency audit firm headquartered in Pune, India.

Led by Kedar Gadgil, backed by a powerhouse team of seasoned specialists in granular, unbiased analysis of business operations.

With a formidable track record of over 250 years of combined experience spanning 4 continents and 11 countries since 1990.

WHO ARE YOU?

You're a **self-made business owner** who has built your company from the ground up. You've faced countless challenges and turned them into victories. Your business now turns over **US\$5 to US\$20 million, with 50 to 200 employees** across the globe.

You're relentless, and you demand the same commitment from your team. But you know something's not quite right. There are **inefficiencies in your processes**, and some employees aren't pulling their weight.

Druid Systems is here to help. We provide **unbiased, actionable insights** into your operations, without the conflicts of interest other "experts" bring. We take a look inside the hood of your business to pinpoint inefficiencies causing friction, quantify the impact of these inefficiencies, and prioritize interventions based on urgency and importance—all at a **fixed cost and timeline**, so you can get back to doing what you do best: running and growing your business.

Our deliverable is **akin to a X-ray report**—giving you precise diagnostics without prescribing treatment. This empowers you to decide the best solutions without any bias. Use our report to **reassign tasks, trim your workforce, and harness the power of AI** in creating efficiencies that lead directly to a more profitable, leaner, meaner, and hungrier business.

WHY AN INDEPENDENT ANALYSIS?

The same vendor who offers solutions has a vested interest in discovering more problems—they profit by solving them.

OUR PROMISES

Arm's Length

No conflict of interest. We do not gain by finding more and more problems and telling you to fix something that ain't broken.

Impartial Perspective

Transparent and unbiased analysis. We have no relationship with your employees. We don't meet or befriend them. The entire operation is remotely conducted. At arm's length.

Objectivity

Actionable insights backed by data and experience. We have nothing to sell you over and above the service you have already bought.

OUR PROPRIETARY APPROACH.

Next-Gen Diagnostics for Efficiency & Process Optimisation.

01

Unique methodology

Harnessing the power of deep, granular audits honed over years of practice.

02

Multi-perspective approach

Comprehensive recording and analysis from more than one perspective and angle.

03

Analysis you can use

Actionable gap analysis and solutions complexity matrix.

04

Deep dive point-of-view

Precision root-cause elucidation, efficiency rating, friction-estimation.

OUR METHO- -DOLOGY.

FIRST HALF - COLLECTION

01

Initial Consultation:

Immersive exploration of business goals, pain points, and expectations.

02

Data Acquisition:

Acquisition of organisational charts, job descriptions, and current processes.

03

Stakeholder Mapping:

Identifying key stakeholders and critical process components.

OUR METHO- -DOLOGY.

SECOND HALF - ANALYSIS

04

Advanced Interviews & Process Tomography:

Conducting detailed video interviews and study for deep process insights.

05

Gap Profiling & Remediation Roadmap:

Thorough comparison with documented processes and formulation of possible intervention strategies.

06

Complexity & Priority Matrix Mapping:

Strategically prioritising interventions based on complexity, impact, cost, time, and urgency.

OUR UNIQUE VALUE ADDITION.

Efficiency metrics for every employee.

CAPACITY ANALYSIS

Measuring underutilized bandwidth to identify where workloads can be balanced more effectively, ensuring no one is overburdened or underutilized.

AUTOMATION POTENTIAL

Assessing the applicability of AI to streamline repetitive tasks, identifying tools and technologies that align with your team's specific needs.

OPTIMIZATION OPPORTUNITIES

Reallocating tasks to ensure a fair distribution of work across teams while incorporating automation where applicable for increased efficiency.

FINAL DELIVERABLES.

Precision 'X-Ray Report'.

Collected & Collated Data

Comprehensive video recordings, transcripts, flow-charts, and emails, including all the raw data we collected.

Note: We do not store any data from your employees or company, nor sell or utilize it to train any LLM. Once we share it with you, everything is deleted. Your data is yours. Period.

Actionable Insights & Strategies

- **Efficiency Scores:** For individual employees and teams.
- **Priority Matrices:** Actionable, ranked insights and gap analysis of inefficiencies within the processes, what damage they are likely causing, and how important, urgent, or easy they might be to fix.

WHAT'S IN IT FOR YOU?

Data-Driven Decision-Making Tool.

01

Clarity

Get unbiased, conflict-free process & staff insights that are not simply 'Ah-a moments', but are actionable immediately.

02

Savings

Pinpoint inefficiencies that cost time and money. Trim staff, reassign tasks, harness the potential of AI to become lean.

03

Control

Take charge of improvements at your own pace and within budgets. Enhance efficiency at process and employee level.

WHY US?

CLIENTS WORLDWIDE SINCE 1990

With innovative expertise and a global vision, we have unparalleled industry expertise with an international footprint for over three decades.

STANDARDISED GLOBAL PROCESS

Streamlined 3-working-day turnaround per interview, ensuring rapid insights and actionable analysis along with seamless remote delivery for global accessibility and scalability.

FIXED INTERNATIONAL RATES

Transparent and easily scalable pricing with a flat fee structure of US\$400 per interview, irrespective of geographical location or client size.
